WAILUKU, MAUI, T. H., SATURDAY, JUNE 12, 1915.

NUMBER 16.

Maui Sees Best Polo In Years

**Big Crowd Witnesses Splendid and
Exciting Contest—Maui Wins 6
to 3 3-4—Collins Takes Tumble
then Shoots Goal.**

By a score of 6 to 3 3/4, the Maui polo team on Thursday defeated the Oahu players, in one of the best games ever played on the Sunnyside grounds. The field was in splendid shape and faster than usual. There was plenty of snap to the playing, and the big crowd of Maui enthusiasts present were kept on needle points of excitement from start to finish.

With the exception of a nasty fall, sustained by Collins when his pony stumbled, there were no accidents to mar the day's sport. Collins was badly shaken up and his leg was hurt, but after securing another mount, he shot a goal in fine style a few minutes after.

The Oahu visitors consisted of Walter Dillingham, Arthur Rice, Harold Castle and Sam Baldwin; while the Maui team consisted of Frank Baldwin, Arthur Collins, Harold Rice, and Dave Fleming. Bob Shingle, who had been expected from Honolulu, was unable to come, and Arthur Rice filled his position. Walter Dillingham played a magnificent game, and while the rest of the Oahu team made a good showing, they did not seem to be quite up to their usual form. Maui held up her end of the game in her usual good style.

It is probable that another meeting of these teams will be arranged within a few weeks, possibly in Honolulu.

County Gets Quarter of A Million

**Tax Money Received Helps Out a Lot
—Registered Warrants Will Take
Half—School Fund and Improve-
ment Fund in Fair Condition.**

The county treasury was this week replenished to the extent of about \$125,000, this being the county's share of the taxes collected by the territory for the first half of the year. While this is almost double the receipts of last year from the first collections, Auditor Wilcox states that the redemption of some \$64,000 in registered warrants will knock a very big hole in the general fund which now amounts to \$83,000. What remains after paying these outstanding warrants, will be about enough to run the county one month.

This does not mean that the county is broke, but simply that a lot of money is tied up in various specific funds. For instance, of the \$125,000 received, \$15,000 goes into the road fund, and some \$26,000 into the permanent improvement fund. The county besides this has a school fund balance of about \$28,000, and next month will receive some \$20,000 revenue from reissuance of licenses of various kinds. With balances carried over from last year the county road fund amounts now to about \$22,000 and the permanent improvement fund is approximately \$33,000.

Taylor to Be Acting Manager Maui Soda

During the absence of R. A. Wadsworth, who leaves next week with his family for a three months' trip to the mainland, Harry H. Taylor will have charge of the Maui Soda & Ice Works, Limited, as acting manager. Mr. Taylor will also act for Mr. Wadsworth as his agent in private business matters.

As previously reported, Mr. Taylor has resigned from his position as manager of the Island Electric Company, the resignation to take effect on the 15th inst. He and his wife will occupy the Wadsworth home during the absence of the family.

JACK LONDON TO VISIT MAUI.

Mr. and Mrs. Jack London are expected by this morning's Claudine for a visit of a week or more with Maui friends. They will be the guests of H. K. Duncan of Kahului, and later of L. von Tempsky, on the Haleakala ranch. Mr. London was a school mate of Mr. Duncan in Oakland. The Londons plan to spend some days in exploring Haleakala crater, and in making a trip around the island by the ditch trail before they leave Maui.

Telephone System Being Reconstructed

**Complete Metallic Circuits Will Soon
Connect Paia and Wailuku—Lahaina
Next—Year's Work Ahead.**

The Maui Telephone Company has begun an elaborate reconstruction of its system, which will probably require upwards of a year to complete. A force of workmen are at present engaged in placing new 40-foot poles between Paia and Kahului, and as soon as these are in place the present wiring will be replaced with new copper conductors. Instead of the present ground return the new system will be complete metallic circuits, which will do away entirely with the annoyance of 'cross-talk' due to induction. The line material is now on the way and will be here by the time the poles are ready to receive them.

Following the completion of the Paia-Kahului lines, the reconstruction will be continued at once clear through to Lahaina, an equivalent of six metallic circuits being contemplated. Superintendent E. B. Carley states that new wiring is also to be put up to Haiku and Pauwela, to replace the wires along the coast which have been badly corroded by exposure to the sea air. Frank Palmatier and William Mangles, two expert linemen, who arrived directly from Seattle, are connected with the new work.

Autos Crash In Polo Game Crowd

**W. H. Field's Machine Badly Damaged
By One Driven by James Smith—
No One Hurt.**

In attempting to swing in front of an automobile driven by Mrs. W. H. Field, about 5:30 o'clock Thursday afternoon, the rear wheel of a car driven by James Smith, of Puunene, locked with the front wheel of the Field machine, and a nasty accident was the result. Fortunately no one in either machine was injured, but the Field auto was damaged to the extent of perhaps \$200.

The collision occurred on the road near Camp 1, near the residence of Dr. Maples, as a large number of machines were returning from the polo game at Sunnyside. In the Field car were Mr. and Mrs. Field and A. C. Hannan, of Cleveland, a visitor. When the machines came together the one driven by Mrs. Field was thrown off the road and crashed into a pile of rocks, tearing off a wheel, fender, top, and doing other damage. The Smith car was but slightly damaged.

Lusitania Victim Penhallow's Cousin

**Was Enroute to Join Red Cross Ser-
vice in Europe as Physician—Not
Known He was on Vessel.**

That Dr. D. P. Penhallow, of Boston, his cousin, was one of the Lusitania victims, was the shocking news received last Saturday by Senator H. B. Penhallow. The blow was entirely unexpected, since Mr. Penhallow had no knowledge that his cousin had taken the ill-fated liner.

Dr. Penhallow had decided to offer his services as a physician to the Allies, and was enroute to join the Red Cross service, when he lost his life. Though it is several years since Senator Penhallow had seen his cousin, they were formerly very close friends, and the news comes as a particularly heavy shock to him.

Lada Low Man On Hospital Bids

Bids were opened by the county supervisors on Thursday for the construction of a new ward for the Mahulani Hospital, Wailuku. The lowest tender was that of Paul Lada—\$4150, but the award was not made pending a review of the tenders. The other bids were: J. C. Foss, Jr., \$4559.50, and J. A. Aheong, \$4321.

Honoipu Has New Skipper

The schooner Honoipu arrived at Hana last Saturday with a general merchandise cargo, and is now loading sugar for the coast. She expects to get away next Tuesday. The Honoipu is now in command of Captain Hersey, at one time wharfmaster at Mahukona, and who is well known as a skipper in the island trade. He has relieved Captain Holmes of the command.

The closing exercises of the Sacred Heart School, of Lahaina, will be held on Wednesday evening, June 23.

New Rest House Is Already Popular

**Caretaker Now in Charge of Hale-
akala Shelter, Which is Expected
to be Self Supporting.**

From present indications, the new rest house at the top of Haleakala, which was turned over by the contractor last week, is soon going to be inadequate to handle the people that will be seeking its shelter. Parties have been at the summit almost every night this week.

The Chamber of Commerce committee has already supplied a lot of mattresses and bedding for the house, though as yet there is no other furniture in the place. Also a permanent caretaker has been secured—a Japanese named Isobe, who with his wife and daughter are now living on the mountain. They have fitted up the old stone house as their home, and will be charged with keeping the rest house in first-class condition. They are not prepared to feed visitors, who are expected to bring their own provisions.

It is believed that the rest house will be largely self supporting, as it has been decided to charge \$1 per night to all visitors who make use of it.

Power Boat Makena Goes Ashore on Reef

**Is Now at Kahului For Repairs—For
Several Days Craft was in Precar-
ious Position.**

While enroute to Lahaina with a cargo of dressed beef for the Plantation Market, last Sunday morning, Dr. J. H. Raymond's power boat "Makena" went on the reef almost directly opposite the home of W. L. Decoto. The heavy surf quickly filled the little craft with water, rendering her helpless. It was not until Tuesday that the boat was finally pulled from the coral after strenuous efforts. She remained afloat, however, and after some temporary repairs she was towed around to Kahului, reaching there yesterday morning. The boat will be put upon the ways of the Kahului Railroad and the damage to her bottom repaired.

The Makena has a refrigerating apparatus on board, and carries meat regularly from the Raymond Ranch to Honolulu and other points.

Hollinger Had No Idea of Not Coming

**Honolulu Horseman Writes Committee
That Welcome Boy Will Come Be-
Here—Expects to Take Purse.**

The misunderstanding which may have existed in connection with the free-for-all race, scheduled for the Fourth of July meet at Kahului, has been definitely removed. The executive committee has received assurances from Tom Hollinger, of Honolulu, that he never took the error in announcement seriously, and that he will be on hand with Welcome Boy to try conclusions once more with Denervo, or any other horse that may elect to go against him. Hollinger is also bringing a promising colt which he believes will show some class in some of the events.

The executive committee is well pleased with the outlook for the coming meet. The bunch of horses which have been working on the Kahului track for some weeks, are pleasing their owners and other fanciers who have been watching them. All indications point to the most successful day's sport ever held on Maui.

Capt. Devanchelle Gets Master's License

Eugene K. Duvauchelle, the well-known Molokai boatman was this week granted a master's license which will entitle him to carry passengers between island ports. Capt. Duvauchelle intends to maintain a regular passenger service in the sampan Anne D. between Molokai and Lahaina.

Puunene Nearly Pau

Puunene Mill will probably finish grinding next week. The season has been a most satisfactory one, and will rank with the two or three high record years of the company. The output will be between 55,000 and 57,000 tons of sugar.

Maui May Soon Get Bond Money

**Bishop & Co., Takes \$100,000
Block of New Issue—Commis-
sioners Consider Road construc-
tion in Homestead District.**

The announcement early this week that the banking house of Bishop & Company has purchased \$100,000 worth of the \$500,000 in Territorial bonds not yet sold, has been welcome news to the members of the Maui loan fund commission, since it is entirely probable that a considerable part of this \$100,000 may be made available for starting some of the various projects on this island.

The commission was notified last week by Treasurer McCarthy that none of the loan money on hand from previous sales of bonds was available for Maui, as it had all been set aside for work already contracted, or about to be contracted for by the harbor commissioners. Also, the unsettled financial situation, due to the war, made it uncertain whether or not the unsold bonds could be readily disposed of.

Commission Meets Homesteaders. The members of the commission, consisting of Chairman W. F. Pogue, R. A. Wadsworth, Dr. J. H. Raymond, and S. E. Kalama made a visit on Tuesday afternoon to the Kula district, and held a meeting at the Kula school house with the homesteaders with reference to the expenditure of the \$35,000 appropriation made by the last legislature for roads in that section. It was generally agreed that the first work should be the macadamizing of the road extending through the homesteads eastward from the Haiku cannery. There is some difference of opinion on other matters, however, and the homesteaders will hold another meeting soon in an effort to get together on the proposition. Several farmers on the extreme eastern side of the tract are unable to get an outlet to a portion of their land unless a new section of road is built, and they are urging that a portion of the money be spent for this purpose.

It was definitely decided by the commission that none of the money will be expended on improving old county roads, it being the opinion that this was not the intent of the legislature in making the appropriation, and that the county should take care of these thoroughfares.

Committee Named On Promotion Matter

**Supervisors and Chamber of Com-
merce will Nominate Maui Repre-
sentative for Publicity Body.**

The Board of Supervisors, at its meeting this week, appointed Supervisors Drummond, Lake, and Chairman Kalama, a committee to meet a similar committee of the Chamber of Commerce for the purpose of nominating a representative of Maui as member of the Hawaii Promotion Committee. By act of the last legislature, and through the amending of the by-laws of the Honolulu Chamber of Commerce, a member of the publicity body may be appointed by the Governor from each of the counties of the Territory.

Comes To Maui To Make His Home

A. J. de Souza, who arrived recently from the Coast, has accepted a position as assistant manager of the Maui Dry Goods & Grocery Company. He entered upon his duties this week. Mr. de Souza comes to Maui because he has been in love with the islands for several years, from glimpses he has had as he passed through, and Maui has chiefly impressed him as a desirable place to live.

Mr. de Souza has had a most interesting career as a world traveler and as confidential agent of governments. He is fluently conversant with half a dozen languages, including Chinese, and many years of his life have been spent in the Orient. At one time he was closely identified with Aguinaldo, the Filipino leader, and he made a number of journeys to Europe on diplomatic missions for this one-time power in the Philippines. His life has been an adventurous one, but he now declares that he means to make a permanent home in the territory. His wife, who is now on the mainland, is expected here soon to join her husband.

OBJECTS TO WILSON POLICY BRYAN QUILTS

**Robt. Lansing Now Acting Secretary of States, Signs
Strong Note to Germany—Germany Claims Right
to Sink American Ships and Pay for Them.**

HONOLULU, June 11.—Sugar, \$97.80.

HONOLULU, June 11.—Officers and sailors of submarines are being transferred to other vessels.

Inability to arrange with steamship lines will prevent bankers from making a visit to Hawaii this summer.

WASHINGTON, June 11.—In the second note to Germany, President Wilson says: "The government of the United States is contending for something much greater than the mere rights of property and the privilege of commerce. It is contending for nothing less high and sacred than the rights of humanity, and upon this principle the United States makes its stand." Assurance of safety is demanded, but what alternative the United States is prepared to take in case Germany refuses to meet America, the note refrains from specifying. Robert Lansing signed the note as secretary of state ad interim—the most important state paper since the Civil War.

ROME, June 11.—Trieste is within sight of the Italian vanguard. Unable to stem Italian advance across Isonzo river, the Austrians tried to effect by tactics of the Belgians in Flanders what their troops had been unable to do by force of arms. They cut the dykes, but the overflow was not enough to stem the advance of the Italians.

COPENHAGEN, June 11.—Fifteen Norwegian vessels have been sunk by torpedo boats of Germany and 12 by floating mines. Sweden lost 6 by torpedoes and 12 by mines. Denmark lost 4 by submarines and 4 by mines. These governments hail with satisfaction the championing by the United States.

SPRINGFIELD, Ill., June 11.—The militia has been called out to quell a race riot in Johnson City. One negro lynched.

ANNAPOLIS, June 11.—More midshipmen brought into investigation of examination cheating scandal. Two that were passed on Friday were made defendants yesterday.

ROME, June 11.—Pope Benedict sees no sign of peace and will support the initiative from America.

HONOLULU, June 10.—H. P. Wood cables his refusal to resign from Promotion Committee secretaryship.

WASHINGTON, June 10.—Germany's answer to American representation regarding sinking of the American sailing ship W. P. Frye by the Prinz Eitel Friedrich, was received by the state department today. It carries a strong statement revealing the attitude of Berlin with reference to neutral commerce. Germany claims the right to destroy any American vessel carrying contraband, and to pay damages for it. Berlin rejects the American proposal to waive adjudication of the matter before a prize court, and to settle it diplomatically. The answer flatly denies that sinking of the Frye was unquestionable violation of obligations imposed upon the Imperial government by existing treaty stipulations.

LONDON, June 30.—Two British torpedo boats have been sunk by German submarines off coast of England. Twenty-two men lost. Six British trawlers torpedoed and sunk and the steamer Ernaboldt, formerly a German vessel, also sunk. Crews saved in each case.

A Paris dispatch says three Austrian aeroplanes bombed arsenal and ammunition factories at Kregueyetz, Serbia, killing 3 and wounding 10. Serbian aeroplanes pursued Austrian flyers, one of which was crippled and dropped.

Berlin officially admits that Germans have sustained a tactical reverse south of Shavli. Russian reinforcements compelled the withdrawal of encircling force east of Buhaya. Conflicting reports came today concerning fighting in the west, all combatants claiming minor victories.

WASHINGTON, June 10.—Mexican convention has supplanted President Garza with Chassaro, a follower of Villa.

ROME, June 10.—Italian army is making significant progress on two fronts. Under Cardona army captured Monsalconc after a stubborn fight. It is conceded that Austrians still dominate on west bank of Isonzo river, where they made first real resistance.

LONDON, June 10.—Great Britain is raising a great army for the war. Total number of army and navy sanctioned by parliament 3,200,000. In some cases army and navy have been enlarged without the authorization of parliament.

WASHINGTON, June 10.—A dispatch from Amsterdam states that the split between President Wilson and Bryan has caused a great sensation in political and diplomatic circles in Berlin, giving weight to the belief that diplomatic relations may be severed.

In Washington the statement given out by Bryan caused amazement, and commendation is given President Wilson for firm stand taken in the matter. Bryan wanted him to issue a warning to Americans not to travel on ships of belligerents nor on vessels of American register carrying munitions. He wished to explain to Germany the principles of peace treaties already held by thirty other nations. Rumors that Secretary Daniels will resign are denied.

SAN FRANCISCO, June 10.—Funeral services were held over the ashes of Charles R. Bishop yesterday.

LONDON, June 10.—In face of great resistance the Italian advance into Carinthia continues. Austrian batteries have been severely punished in bombardment.

PARIS, June 10.—A canvass of resident envoys accredited here, gave it as their opinion that a rupture of relations between Germany and United States would tend to hasten end of war.

A sustained and formidable bombardment of a newly won position of the Allies has been opened by Germans north of Arras. Elsewhere on western front there is comparative inactivity.

WASHINGTON, June 10.—The President is considering sending a note to Great Britain and France protesting to these governments against holding cargoes not contraband.

HONOLULU, June 9.—A rumor comes by way of Washington correspondent of the Star-Bulletin that fight for sugar tariff is being shaped.

Alexander Morrison, manager of Honokaa plantation, has resigned.

ATLANTA, June 9.—Prison commission has refused to recommend executive clemency in the Frank murder case.

WASHINGTON, June 9.—German headquarters reports more than 20,000 Russian prisoners taken since June 1. Teuton allies have crossed the Liewka, south of the Dneister. Enemy's attack definitely failed on eastern slope of Loretto heights.

(Additional Wireless on Page 4.)
